

## Handprint Peacock

Making a handprint Peacock is fun and easy to do! All you need to make one is:

A sheet of plain paper, some blue paint, a paintbrush and some colourful pens or pencils!

Using the paintbrush paint the palm of your hand blue, then print it on the paper. Use the paintbrush to fill in any gaps

Then just draw on the extra details such as a beak and feathers and add any other extras you would like such as sequins and glitter.

And there you have a handprint Peacock!
