

PAPER CHICK

This cute paper chick is very simple to make, all you need is, plain paper (A4), 3 pipe cleaners, felt tip pens (or alternative), and some glue.

1) With adult supervision, cut your sheet of paper in half.

2) Take 2 pipe cleaners to create the chicks legs with, (we chose orange), bend the end of the pipe cleaners to make the chicks feet.

3) Roll your piece of paper to create a tube, glue the ends together so that it holds.

4) Now draw on a face for your chick and tape on the legs to the inside of the bottom of your paper tube.

5) Finally, cut your last pipe cleaner into four pieces and stick them inside the top of the tube to give your chick some feathers.

There you have it, a paper chick!
