

Toilet Tube Octopus

It's super easy to make this cute octopus using Buster Books' Toilet Roll Activity Book. All you need is tissue paper or paint, googly eyes, scissors, glue and a toilet tube!

1. Paint or cover your toilet tube with tissue paper in a light orange.
2. Cut even strips up to the middle of the tube- these will be the tentacles.
3. Then cut out 16 circles to put on the tentacles in a darker shade of orange.
4. Finally, stick on a pair of googly eyes and your octopus is complete!
