

Toilet Tube Huts

All you need to make this cute little hut is some tissue paper and 1 x toilet tube!

1. Cut a toilet tube in half.
2. Paint the toilet tube in your preferred colour.
3. Draw a door onto the tube and cut a piece out. (You may need to do this part instead of your children)
4. Finally, on colour card, cut out a circle 10cm in diameter, shape it into a cone and stick on top of the hut as a roof.
5. And there you have a toilet tube hut- perfect houses for mini toys!
