

Santa Mask

Follow these easy steps to create this festive Santa mask. All you need is some cardboard, a paper plate, red paint, cotton wool balls, scissors, glue and string.

1. Cut out the centre of a paper plate.
2. Paint a Santa's hat in red on card and cut it out.
3. Stick on a cotton wool ball at the point of the hat.
4. Stick the hat onto the top of the paper plate.
5. Pierce 2 holes (1 either side of the plate).
6. Thread string through the two holes, making sure it is long enough to fit around your head.
7. And finally, cover the rest of the paper plate with cotton wool balls to create Santa's beard.
