Handprint Elephant

Getting messy is a great way for kids to enhance their senses and creativity, especially through this handprint elephant. All you need is black, white, blue and green paint as well as a piece of paper!

1. Mix white and black paint together to create a grey colour.
2. Paint your hand grey and press it onto a piece of paper to act as the body.
3. Fill in any white bits of the body.
4. Paint green grass around the elephant's legs.
5. Using the blue paint, add water droplets coming out of the trunk.
6. And finally, add on the elephant's features e.g. ears, eyes, mouth and tail!
